Forecast for Sunday 28 Feb 2021

Weather: Staying dry with mist and low cloud mostly dispersing during the morning to leave plenty of sunshine. This will produce strong glare from snowfields at higher elevations.

Chance of cloud free mountain/hill tops above 800m: 40% at first, mostly in north, improving 90% by afternoon.

Visibility: Misty conditions at first with banks of cloud well down the hills, most extensive in south and west of area. This will mostly lift and disperse during the morning with visibility becoming good. Visibility will be very good all day over the Cairngorms with well broken cloud.

Met Office Aberdeen Meteorologist's View
Even with lighter winds on the tops it will still feel cold with temperatures close to freezing.

Forecast for Monday 01 Mar 2021
Weather: A dry and bright day with some mist and fog patches in the glens at first, soon dispersing. This will leave plenty of sunshine with again strong glare from the snow cover.

Maximum wind: Southwesterly winds with average speeds of 10 to 15mph on the tops.

Chance of cloud free mountain/hill tops above 800m: 90%

Visibility: The air will have great clarity resulting in excellent visibility. Only a few patches of cloud covering the tops. Any early mist and low cloud soon dispersing.

Temperature: **Glens:** Minus 2 Celsius rising to 11 Celsius.
At 800m: Plus 2 Celsius.
Freezing level: Remaining around 1000m.
